HEALTHY CHEF Cooking Michiu (Rice Cooking Wine)

Cooking Michiu, rice cooking wine, is a rich-flavored liquid that is made from fermented sweetened glutinous rice. The manufacturing process involves converting rice starch to sugar and leaving the yeast to convert sugar to alcohol. The result is a product whose relatively low alcohol content (about 10%) and sweetness have made it a staple in various Asian cuisines. Cooking Michiu is ideal for stir-frys and marinades.

Kosher Extras Virgin Olive Oil

Angelo's Grove Extras Virgin Olive Oil is a very healthy addition to your diet. Many studies have shown that using extra virgin olive oil can lower heart disease risk and protection against many degenerative diseases. Olive oil is rich in monosaturated fat which reduces bad cholesterol levels and helps maintain the body's cells.
